One team for your systems, your site and your growth.

Most growing businesses juggle three or four vendors: one for software, one for the website, one for ads. We bring it together, so your leads, stock, people and marketing finally work as one.

01

Automation & AI

Replace registers, spreadsheets and manual follow-ups.

- Workflow automation
- CRM & ERP
- WhatsApp & AI chatbots
- Dashboards & predictive AI
- Custom business software

Custom quote
Scoped on a free call

02

Design & Development

Websites, stores and apps built around how your customers buy.

- Business websites & WordPress
- Shopify stores
- Web apps & portals
- Mobile apps (Android, iOS)
- UI/UX, frontend, backend & APIs

websites from **₹6,999**

03

Digital Marketing

Get found, get enquiries, keep them coming.

- SEO & Local SEO
- Google Ads
- Meta Ads (Facebook & Instagram)
- Social media growth
- Free SEO and social audits

plans from **₹1,999** per month

Why teams pick Trustlytics

One team, one plan

Systems, website and marketing talk to each other, instead of three vendors pulling three ways.

Fixed quote in writing

Scope, timeline and price are agreed before work starts. No surprise invoices later.

Built in phases

We roll out in stages, so your daily work is not disturbed while systems go live.

A team you can call

Based in Howrah, serving businesses across India. Training and support continue after go-live.

How pricing works

1

Free discovery call

Tell us about your business, team and goals. No pressure.

2

Written scope and quote

Features, timeline and one fixed price, in writing.

3

Build and launch

We set up, connect and test, sharing progress as we go.

4

Train and support

Your team is trained. Support continues after go-live.

Pricing guide: Websites, stores and marketing plans have clear starting prices in this guide. Automation, AI and custom software are scoped to your business, so each gets a written fixed quote after a free discovery call.

All services at a glance.

Starting prices in Indian rupees. Where you see Custom quote, we scope your needs on a free call and send one fixed price in writing before any work starts.

Automation that fits your business, not the other way round.

Every business runs differently, so we scope first and quote in writing. No guesswork, and no price list that does not match your reality.

01 Automation services

Free call, then a written quote

Workflow Automation

Stop chasing approvals and follow-ups.

Custom quote
Fixed price in writing

- Automated task routing and approvals
- Real-time sync between sheets, apps and databases through APIs
- Invoice, expense, sales-order and quotation flows
- Customer follow-ups, service requests and document sign-offs
- Simple dashboards to track every task
- Rolled out in phases, so daily work continues

CRM & ERP Solutions

Leads, staff, stock and accounts in one place.

Custom quote
Fixed price in writing

- Ready-to-fit setups for manufacturers, clinics, schools, wholesale and retail, hotels, restaurants and real estate
- Honest platform advice: Zoho, Odoo, ERPNext or fully custom
- Data migration from Excel, Sheets or older software, with backup first
- Approval levels, user roles and business rules
- Staff training and support after go-live

AI Chatbots & WhatsApp

Reply to every lead, at any hour.

Custom quote
Fixed price in writing

- WhatsApp chatbot (WhatsApp Business Platform) and website chatbot
- Appointment booking, FAQ replies, lead capture and qualification
- Payment reminders, order updates and broadcast campaigns
- Connects with CRM, ERP and Google Sheets, with human handover
- Chat analytics and multi-language replies
- WhatsApp message charges, if any, explained upfront

Data, Analytics & Predictive AI

See what is happening, and what is coming.

Custom quote
Fixed price in writing

- Live dashboards in Power BI, Looker Studio or Tableau
- Data collection, cleaning and setup
- Predictive models for sales, demand, leads, churn and revenue
- Chat-based analytics for quick answers
- Hands-on team training and support
- Full details on page 7

02 Automation advisory

Know what to automate before you spend

Free Audit

No obligation

Free

- Discovery call about your business
- Top areas worth automating
- An honest view of what to do first
- Advice on whether a full audit is needed

MOST POPULAR

Automation Roadmap

Scoped by business size

Custom quote
After the free audit

- Full process audit
- Tool and system recommendations
- Step-by-step roadmap
- Cost and time-saving estimate
- Written plan you keep, usable with any vendor

Advisory Partner

Monthly, after discovery

Monthly plan
Agreed after discovery

- Everything in Automation Roadmap
- Regular progress reviews
- Help choosing and checking vendors
- Plan updates as you grow
- Priority support

What shapes your quote: number of systems, users and branches, integrations with tools you already use, data to migrate, and custom reports or approvals. We tell you the price before we build, and we say so plainly if you do not need to automate something yet.

Start small. Connect more as you grow.

Pick a ready starting point, or let us combine systems into one connected setup. Not sure which fits? Start with the free automation audit.

01 Choose your starting point

Each is quoted on scope

Starter Automation

Startups, local stores, service providers

Custom quote
Quoted on scope

- Any 2 systems from the list below
- Basic admin dashboard
- Employee and customer management
- WhatsApp and email notifications
- Basic reports and tracking
- User access control and team training

MOST POPULAR

Smart Business Automation

Agencies, retailers, distributors

Custom quote
Quoted on scope

- Any 6 of 13 systems
- Analytics and custom reporting dashboards
- Advanced quotation calculator
- Sales and lead tracking
- Attendance, payroll, inventory and warehouse
- Role-based access, WhatsApp and email automation

Enterprise Ecosystem

Factories, multi-location businesses

Custom quote
Final price on scope

- Full automation suite, all systems
- Fully custom ERP development
- AI-based and advanced workflow automation
- Mobile app and payment gateway integration
- Real-time analytics and API integrations
- Cloud database, backup and advanced security
- Dedicated support, training and documentation

02 The 13 systems you can choose from

HRMS (HR, payroll, attendance) · LMS (training) · CRM (customers) · POS (sales) · Quotation Calculator · EMS (enquiries) · SCM (supply chain) · WMS (warehouse) · QMS (quality) · TMS (transport) · MIS (reports) · FMS (finance) · DMS (documents)

03 Optional add-ons

Quoted with your package

AI Chatbot Integration
Replies and lead capture, 24/7.

SMS & WhatsApp API setup
Official API, alerts and campaigns.

Payment Gateway Integration
Collect payments inside your system.

04 How an automation project runs

1. **Discovery**
   Free call to understand your process and goals.
2. **Scope and quote**
   Systems, users, timeline and one fixed price in writing.
3. **Phased build**
   Developed in stages, with progress shared along the way.
4. **Go-live and training**
   Your team is trained, and support continues.

Good to know: extra systems beyond a package can be added to the quote. Third-party charges such as WhatsApp API messages, hosting, licences and payment gateway fees are billed by the providers. Standard setups typically go live in 2 to 3 weeks, depending on systems and users.

Software we build for you.

Custom software with web and mobile access, built around your process. Every system is quoted in writing after a short discovery call.

OPERATIONS & INVENTORY

Inventory Management
Real-time stock, low-stock alerts, batch, expiry and serial tracking

Warehouse Management
Multi-warehouse control, rack and bin mapping, GRN, barcode picking

Supply Chain Management
Suppliers, purchase orders, shipment visibility, vendor reports

Barcode Management
Barcode and QR labels, bulk printing, scan to update stock

SALES, FINANCE & ERP

ERP Software
Sales, purchase, stock and accounts in one GST-ready system, multi-branch

CRM Software
Lead capture, follow-up reminders, visual sales pipeline, quotations

Sales Management
Quotation to invoice, targets, payment tracking, sales analytics

POS Software
GST billing, barcode and receipt printing, live stock deduction

Financial Management (FMS)
Income, expenses, ledgers, live P&L and cash flow, GST reports

PEOPLE & INDUSTRY

HRMS Software
Attendance, leave, payroll and payslips, onboarding, shifts

Hospital Management
OPD / IPD, appointments, billing, pharmacy, lab, digital records

School Management
Admissions, fees, attendance, results, parent updates

Custom Business Software
Built around your exact process, with web and mobile access

AI & AUTOMATION

BI Analytical Dashboards
Live KPI dashboards, drill-down, Excel / Sheets / ERP data, scheduled reports

AI Forecasting
Demand and sales prediction, reorder suggestions, seasonal trends

Business Process Automation
Rule-based approvals, alerts, audit trail, less manual entry

Process Automation Services
Bottleneck audit, automated forms and reports, Sheets and API automations

WhatsApp Chatbot Setup
Official Cloud API, auto-replies, lead capture, alerts, campaigns

AI Integration Services
AI assistants connected to CRM, ERP and sheets, document extraction

How these are quoted: each system is a standard-scope, one-time build, priced after a short discovery call. Extra modules, branches, integrations or custom reports are added to the written quote. Hosting, software licences, WhatsApp API and payment gateway charges are billed by the providers.

Not sure which one you need? Start with the free automation audit. We will tell you honestly what to build first, and whether you need to build anything at all.

Data, analytics and predictive AI.

See where your business is heading, using the data you already collect.

01 Predictive AI models

Turn your own data into forecasts

Sales Forecasting

Predict future sales from history, trends and seasonality.

Example: Know likely sales next month, so you can plan stock, staff and budget.

Demand Forecasting

Forecast product demand to guide buying and production.

Example: Order the right quantity of the right products and avoid stockouts.

Lead Scoring

Rank leads by how likely they are to convert.

Example: Your team calls the best leads first and closes more in less time.

Customer Churn Prediction

Spot customers who are at risk of leaving.

Example: Reach out early with an offer or a call, and keep them.

Revenue Prediction

Estimate future revenue from sales and performance.

Example: Plan expenses, cash flow and investments with more confidence.

Customer Segmentation

Group customers by behaviour and value.

Example: Send the right offer to the right group.

02 Data setup, dashboards and consulting

Data Collection & Setup

An organised system for scattered or missing data.

Data Cleaning & Optimisation

Clean, reliable data you can trust.

Dashboard Automation

Automated dashboards in Power BI, Looker Studio or Tableau.

Chat-Based Analytics

Ask questions in plain language, get quick answers.

Business Reports & Consulting

Professional reports and data-backed recommendations.

Training & Support

Hands-on training so your team can run it alone.

03 Also available

Quoted on scope

- Power BI Consulting
- Tableau Consulting
- Data Visualisation
- Healthcare Analytics
- AI Consulting
- Data Analytics Consulting
- Master Data Management
- Customer Support AI
- Data Foundation
- Analytics & BI
- Pipeline & Revenue Analytics
- Sales & CRM AI

Honest note: predictions are only as good as the data behind them. We check how much clean history you have on the discovery call, and tell you plainly if a model is not yet a good fit. We do not promise specific sales or revenue results.

04 How a predictive project runs

1. **Share your data**
   Sales or enquiry history from Excel, billing software or your CRM.
2. **Check and clean**
   We check data quality and tell you honestly if a model fits.
3. **Build and test**
   The model is tested on your past data before you rely on it.
4. **Dashboard and training**
   Results appear on a simple dashboard, and your team is trained.

Every predictive project is quoted in writing. Share your data situation on a free call and we will scope the right model for it.

Websites that load fast and bring in enquiries.

Fixed one-time prices and clear delivery times. Design and code are handled by one team, so nothing gets lost between a designer and a developer.

01 Business websites

Fast, modern interfaces.

- React, Next.js and Vue.js with Tailwind CSS and TypeScript
- Landing pages, single-page apps and PWAs
- CMS front-ends and website redesign
- Responsive, performance-focused builds

Backend & API Systems

Custom quote
Fixed price in writing

Secure and scalable.

- Custom REST and GraphQL APIs
- Cloud setup on AWS, Azure or GCP
- SQL / NoSQL database design
- Authentication, encryption and OWASP-aligned security
- Migration of older systems to modern cloud architecture

02 How a custom project runs

1. **Discovery** — Free call to understand your process and goals.
2. **Scope and quote** — Features, timeline and a written quote.
3. **Design** — Screens you approve before development.
4. **Build and test** — Developed in stages with progress shared.
5. **Launch and support** — Go live, train your team, keep it running.

03 Tools we work with

React · Next.js · Vue.js · Node.js · TypeScript · Tailwind CSS · MySQL · MongoDB · Flutter · React Native · WordPress · Shopify · AWS · Azure · GCP · Razorpay · WhatsApp Cloud API

Need a number to plan your budget? Share your idea on a free discovery call. You get a written scope, timeline and one fixed price, so there are no surprises later.

SEO and Local SEO.

Monthly plans. Ad budgets and third-party costs are separate.

01 Search engine optimisation

Rank higher on Google. Monthly plans.

Starter SEO

Small businesses, new websites

₹3,999 per month

- Website SEO audit
- Up to 5 target keywords
- Basic on-page optimisation
- Meta titles, descriptions, image ALT text
- Basic technical SEO checks
- 1 SEO article a month
- Monthly performance report

MOST POPULAR

Growth SEO

Growing businesses

₹6,999 per month

- Everything in Starter
- Up to 10 keywords, 10 pages optimised
- Technical SEO monitoring
- 2 SEO articles a month
- Internal linking, basic competitor analysis
- Search Console and Analytics monitoring

- Paid social ads
- Influencer outreach
- Monthly performance reporting

03 Free audits

A quick starting point

Free SEO audit

See where your site ranks today and what to fix first.

Free Local SEO audit

Check your Google Business Profile and Maps visibility.

Free social media audit

Review your pages, content and enquiry flow.

Not sure where to begin? Ask for a free audit. We will show you where you stand today and what to fix first.

Let's grow your business.

A clear process, clear prices where they make sense, and a team in Howrah you can actually call.

01 Industries we serve

- Personal & local services
- Healthcare
- Education & coaching
- Ecommerce & retail
- Travel & hospitality
- Manufacturing & enterprise
- 20+ verticals covered

02 Good to know

Prices

Shown in Indian rupees and exclude applicable GST unless stated in your agreement. Listed as of November 2026. Automation, software and custom development are priced per project, and your written proposal is the final price.

Third-party costs

Domain, hosting, Shopify plan, paid plugins and apps, WhatsApp API messages, payment gateway fees and ad spend are billed by the providers, separately from our fees.

Results

We do not guarantee specific search rankings, lead volumes or revenue. These depend on factors outside our control, so we report progress openly every month.

Monthly plans

Either party can cancel with 30 days' written notice. Fees for services already delivered are non-refundable.

Project payments

Milestones and payment schedule are set out in your proposal before work starts.

Your information

We keep your business information confidential and explain what data a chatbot or system will store before we begin.

LET'S TALK

Tell us about your business.

Free discovery call. Honest advice. A written quote.
